#### **Risk Factor**

1.Risks from Business Competitions: The Company operates the distribution of Ownbrand product and is a distributor of consumer products which is acknowledged for good and effective management. The products are consumer products, food and beverage products which are very competitive products in the industry and tend to continually grow every year resulting in intense competition in distribution services or of being a distributor. The Company foresees the need to constantly enhance its competitiveness by expanding the distribution channels in order to respond to the expanding market of target groups to drive revenues and concentrate on small and mid-size businesses which are expanding into other regions domestically and internationally, specifically the CLMV.

The Company, therefore, has been focus on developing and sourcing the new products under its own brand and subsidiary brand, raising the variety of distribution channels to support new products from the manufacturer or product owner, keeping bonding with and building loyal customer base, creating effective sales and operations plan and ensuring execution as arranged, developing survey on satisfaction toward the Company used for operations improvement to proficiently meet the expectation of the product owners, building the CRM network to raise awareness of the Company and promoting the Company's image as a reputable and reliable agent in the market, optimizing information system to be more efficient and better fit to the business of the Company, and setting the inventory system to be suitable to the business of distributing agent in both cost and performance.

2. Risks from Dependency upon Pigeon Corp, the Manufacturer and Brand Owner of Pigeon: In addition to operating business as the sole distributor in Thailand of mother and baby care products, branded "Pigeon", since 1988, the Company also co-establish Thai Pigeon Company Limited and Pigeon Industries (Thailand) Limited to manufacture "Pigeon" products for the Company to distribute it domestically. In 2018, revenues from "Pigeon" product were accounted for 79.5% of total revenue, a reduction from 80% in the past, the Company still depended upon the "Pigeon" brand. On the other hand, has been retaining strong relationship for a long time, and with "Pigeon" products constantly increasing in sales, the Company was trusted by Pigeon Corp and appointed to be an exclusive distributor of "Pigeon" products in Lao People's Democratic Republic in 2016. This represents the good relationship between the Company and Pigeon Corp. However, dependency upon Pigeon Corp can possibly impact business growth in the future. The Company, therefore, develop new products under the Company's brands. As it can be seen that the proportion of the distribution of the products under the Company's brands is increased respectively, 12.1% in 2018. In addition, the Company has also been operating in distribution the consumer products under other brands besides "Pigeon".

**3. Risks from Stagnant Economy**: The Company has placed emphasis upon new distribution channels, especially digital, as well as growing variety in products that the Company operates as distributing agent.
